

YOU ARE INVITED TO THE 2011 UPPER DES PLAINES RIVER WATERSHED TOUR

“Green Infrastructure: Making a Difference in the Watershed”

A tour of innovative stormwater Green Infrastructure practices being installed by municipalities, IDOT, and corporations.

Tuesday, October 25, 2011

Join UDPREP and our host communities of Lincolnshire, Bannockburn and Mettawa, for a fun and informative day exploring public and private green infrastructure practice sites in Lake County. Tour innovative public parks, rain gardens and private corporations with LEED Gold certifications.

Mail the attached registration form with check payable to UDPREP by October 21st, to Nancy Schumm, UDPREP Coordinator, 220 A Thornhill Ct., Lake Barrington, IL 60010

The tour will meet and leave from North Park in Lincolnshire at 9 am. The tour will feature the use of bioswales and native landscaping (North Park, Lincolnshire); municipal rain gardens and green street road design (Bannockburn); naturalized stormwater management; and green building features (corporate buildings).

Lunch will be enjoyed at the Ryerson Woods Welcome Center and is included in the cost.

Pre-registration is required.

**Sponsored by a grant
from Grand Victoria
Foundation.**
